SHOWBOAT, MOVIE STAR, PIRATE SHIP, SEA HOME... SEA FORTH.

Naval architect Hugh Angelman's salty little clipper ship will take you around the harbor -- or the world! -- in fine style and easy comfort.

Meticulously maintained by a successful local artist, who's also known for his mastery of wood, Sea Forth is a show-stopper above decks and in the elegant Main Salon below.

Hollywood came calling in Tahiti, where Sea Forth, Angie Dickenson and Cliff Robertson co-starred in the movie drama, "Overboard."

Closer to home, she Sea Forth flies a Jolly Roger, Marine Corps banner and cocktail flag over a fabulous aft deck built for intimate entertaining, lazy afternoons and bawdy pirate parties.

A *Seawitch Casts Its Spell*, feature article published in **Sea Magazine** that profiled Sea Forth called her "majestic" saying "the clipper-bowed, broad-beamed salty Seawitch still turns heads in any anchorage."
